Good afternoon [REDACTED],

Yes, it is USMC wide, as far as I know. I will touch base with our MCIWEST HQ, but with this newest iteration of the information we provided, my guess is that FY22 will be available soon. FY21 is still in flux, as HQMC is trying to bring in prior year poets for use. I will keep you updated as I receive more information.

I apologize for the inconvenience to both you and your customer(s), and appreciate your patience in what has been a difficult transition.

Thanks,

Hi [REDACTED],
Thank you very much for the update below. Is this problem with getting employees reimbursed for their academic degree program costs happening across the USMC with the DAI transition? We have one employee who is threatening to escalate her frustration with the delays and I am just wondering if HQMC is tracking?

Thank you!

V/r,

Good afternoon,

Just an update on the FY22 3B4D.

MCIWEST HQ is still working with the holders of this funding regarding

They also asked that a DD577 be completed. MCIWEST see no reason to do an additional form so they are pushing back on that request, more to follow if necessary. Mr. PerezArce already has one on file for DAI, so we currently have the reviewer/certifier set up as found below:
